PRESSED BRICK PLANT TO OPEN NEXT MONDAY

**Will Employ Twenty-five Men
To Start—Prospects Good for
Busy Season in Building
Trade.**

During the past few weeks men have been busy at the Pressed Brick plant here overhauling the machinery and renovating the building in preparation for starting operations whenever conditions warranted. This work is now all finished and the plant will open up for business next Monday morning.

For the present about 25 men will be employed and as conditions at present are most promising in the building line it is only reasonable to expect that a busy season is ahead for the brick trade.

Will Open School Tuesday April 1st.

At a meeting of the Board of Health held last night the question regarding the 'flu epidemic was gone through into with the view of deciding what action should be taken regarding the reopening of the school. It was shown that in all there are at present 47 cases in town and that the indications are that a large percentage of these will be out of quarantine by the end of the week.

As the epidemic appears to be on the decline and no new cases are developing, it was decided to make arrangements to open the school again on Tuesday, April 1st.

Campaign on Here Fos Salvation Army

Capt. Geo. Jones, of the Royal Army, was in town on Monday last for the purpose of organizing the town for a campaign to oust the Salvation Army from this town.

British Columbia Has Big Water Power

In British Columbia there are many important water-powers. The investigation of the water-powers of British Columbia by the Commission of Conservation has disclosed the existence of two great water-power centers, namely, Nelson, with 400,000 h. p. within a radius of 60 miles, and Vancouver, with 300,000 h. p. within the same distance. Based on present estimates for a population of 1,700,000 one at Toronto, these quantities would be at Nelson, or for 10 manufacturing cities of 170,000 each. The power near Vancouver would suffice for one manufacturing city of 1,350,000 population, or for 10 cities of 135,000 each.

Says Enemy Should Pay Canada's Claims

That Austria, Germany and Turkey should be made to pay as much indemnity as possible was the opinion expressed by Sir Thomas White, acting premier, in the house of commons in discussing a resolution introduced by P. R. Drenth, to the effect that Sir Robert Borden should be instructed to claim an indemnity from Germany corresponding to the amount the war had cost Canada.

School Fairs to Be Encouraged

School Fairs have been conducted in Alberta for three years by the Provincial Department of Agriculture, in co-operation with the Department of Education. In order to introduce the value of the School Fair Movement, the Government has assumed the larger part of the expense and work. Home gardens and school fairs have so far demonstrated their value that there is now a strong demand from different parts of the province for the continuance and extension of the work.

To extend the work and save the maximum number of districts it has been found necessary to make some changes in the plan. Two important changes have been made, first, the Agricultural Schools have been given direction of the work in their respective districts second, the communities in which the fairs are being held are being asked to assume a greater part of the expense and work than has been the case heretofore. On condition that a committee of local people will assume, for their community, the responsibilities outlined in this circular, the Department of Agriculture will make the following contributions to a School Fair:

1. Through the Schools of Agriculture send an organizer and supervisor where needed.
2. Supply seeds to the pupils of the participating schools, the value of the seeds will be about \$300 per school.
3. Print instructional circulars for distribution to the pupils.
4. Supply mounting cards for plant collections and pans for insect collections.

In co-operation with the Committee prepare and print the Price List.

5. Print Entry Forms, Entry Tags and Prize Cards for the fairs.
6. Grant Life Stock judges to the extent of \$25.00 for the fairs.

Donations of the Committee:

1. Select the schools to be included.
2. The group should consist of from 5 to 10 schools.
3. Send to the Schools of Agriculture a list of the schools which are to be included. A form is provided for this purpose.
4. Secure the seeds and deliver them to representatives of the schools.
5. Raise the money necessary for prizes and other expenses to be given by the Department. The committee may adopt any method they desire to raise this money but, it is suggested, that the use of each school participating be asked to contribute a definite amount. Ten dollars per school would be sufficient.

6. Make all local arrangements necessary for the success of the fair.

Points to be Considered in Organizing and Conducting a School Fair:

1. The School Institute should be consulted before definite action is taken toward selecting a group of schools for a Fair.
2. The committee which has charge of the fair should, if possible, represent the various existing organizations for the promotion of Agriculture.
3. For the purpose of discussing the entire plan it might be advisable to hold a meeting at which would be representatives of the schools concerned together with as many of the teachers as could attend.
4. If the school is to participate in the School of Agriculture every effort will be made to have a member of its staff attend.
5. School members of the committee, preferably one living at or near the centre, should be appointed to conduct all correspondence and receive material sent from the School of Agriculture.
6. The Price List submitted should be discussed at the meeting and the committee should be returned to the Agricultural School in order that lists may be printed and distributed among the pupils.
7. It may be advisable for the committee to interview the local bank manager with a view to securing the Canadian Bankers' Association price for life stock.
8. In a district where a representative of the Department of Agriculture is stationed the committee will be able to get information and assistance by application to him.
9. The "Borden" giving lists of schools and information regarding them should be returned promptly to the Agricultural School. As soon as

the lists of schools is received, forms will be sent to the teachers on which they will make application for the seeds required by their pupils. This part of the work must be attended to promptly so as to insure the delivery of the seeds before planting time. Address all letters to the Principal, School of Agriculture, Olds, Alberta.

Alben Lamont is Victim of Pneumonia

A very bad death occurred in town last Monday afternoon, when Alben Lamont, son of Donald Lamont, passed away.

Deceased contracted the influenza a week previous and this developed into pneumonia which had taken such a hold on him that it could not be shaken off. He was a young man in his twenty-fourth year, and, although a quiet, unassuming individual, had made many friends in Redcliff. He came here to work in the glass plant when that industry first started. At the outbreak of war he went to Vancouver where he is now located, but he was later discharged on account of his health. From there he returned to Montreal where he was employed with the same company as when he came here. Just two months ago he returned to Redcliff to be with the rest of his family and was working until he took ill.

The funeral took place yesterday afternoon and the remains were interred in the Redcliff cemetery. H. C. Gibson conducted the funeral service. The funeral was largely attended and the large number of floral offerings showed in a measure the esteem in which the deceased was held. Among those who sent flowers were Mr. and Mrs. D. MacCarty, Mr. and Mrs. N. Finney, Mr. Geo. Lydell, F. W. White, members of the Glass Workers' union, and Lena Benzenberger.

Mr. and Mrs. Lamont say they wish to extend to their friends their thanks for the sympathy expressed and many kindnesses shown in help recent trouble and bereavement.

Will Deport Aliens From Canada Soon

H. H. Clements moved in the House today that it was expedient the policy of the government in relation to the internment of alien enemies deportation of undesirable persons and the treatment of soldiers be clearly defined. He said every alien enemy was just as much a citizen today as he was during the war, and he should be deported at the end of the war. The authorities should not wait for palatial ships to take them from Canada; cattle ships were plenty good enough.

Hon. Arthur Meighen, in reply, said the policy of the government was to deport all alien enemies and to separate the church and state and to dismiss all commissioners of the Karel's government, while inviting all workers' councils to select directors of four members each to replace them. The formation of the revolutionary court was decided upon and the council ordered the people's commissioners to take over all home, business and agricultural in private hands.

Better Conditions For Men Says Shagnessy

Speaking at the Canadian Pacific Railway banquet on Saturday, Lord Shagnessy referred to labor conditions in the old country, saying that unrest of labor there was a cause of anxiety. It was something more than a quiet note and peace.

The workmen of the future, the workmen of today, must be permitted and assisted to lead a different existence than that of the past. They must have the opportunity to enjoy the good things of life that there is in higher positions have enjoyed.

He readily concluded with an appeal for co-operation.

Prof. Louis B. Helman, of the directors of the Northern Danes Association will be in Redcliff tomorrow (Friday) to enroll a limited number of pupils to start a dancing class. He will be at the Redcliff hotel from 9 a.m. to 5 p.m. in the afternoon.

G. W. V. A. NOTES.

The whist drive and dance and the Sunday evening concert announced in last week's issue for Friday, 29th inst. and Sunday, 30th inst., are postponed for some time. The whist drive will be informed of the date on which these events will be held.

There will be no general meeting of Sunday, 30th inst., but there will be one on Sunday, April 6th, and all veterans are cordially invited to attend.

Thanks to the 'Gu again, the Ladies' Auxiliary has been retarded in its period of organization, but efforts will be made to get the work started in the near future. The badges of the Ladies' Auxiliary are now on hand and those desirous of procuring one may do so by applying to Mrs. Hargrave.

Redcliff Boy Wins A Decoration

Last Thursday's issue of the Calgary Herald contained a note of Jack David, a Redcliff boy who enlisted for overseas early in the war and was a decoration. The Herald says: "According to the Gazette this morning showed great courage and presence of mind during the German gas attack in the Ypres salient on October 1917. Although severely injured he did not desert work in looking after his men and defending the position the troops occupied. He is appointed the beginning of April."

Dr. Shearer to be Inducted April 9th

At a meeting of the Medicine Hat Presbytery held in St. John's church last Tuesday afternoon arrangements were made for the induction of Rev. Dr. Shearer, who is to be inducted in the church here. The date for the induction is set for Wednesday, April 9th, and the ceremony will take place in the church here at 8 o'clock in the evening.

Rev. R. H. McKinnon, the moderator will read, Rev. A. J. Claxton will preach the sermon, Rev. T. W. Wilson will address the pastor and Rev. J. W. Morrow will give the charge to the congregation.

Hungarians Decide To Abolish Titles

The new Hungarian government at its first meeting Saturday, says a dispatch from Budapest, decided to abolish all titles of rank to separate the church and state and to dismiss all commissioners of the Karel's government, while inviting all workers' councils to select directors of four members each to replace them. The formation of the revolutionary court was decided upon and the council ordered the people's commissioners to take over all home, business and agricultural in private hands.

EGYPT IS NOW IN STATE OF INSURRECTION

Defending the military service in the house of commons, Winston Spencer Churchill, secretary of war, declared that the whole of Egypt was in a virtual state of insurrection. The government had to suspend all men on the point of demobilization and return and have their demobilization a quiet note and peace.

GERMAN REPRESENTATIVES TO INTERVIEW SOVIET

Count von Brockdorff-Rapagne, the German foreign minister, has sent Carl Kautsky, one of the under-secretaries in the foreign ministry, to Moscow to see the chiefs of the Soviet Government and to furnish an accurate report on the situation which will allow the foreign minister to study matters as to the bringing about of closer political and economic relations with the Russian Bolshevik Government.

Alberta is to have a "great industrial congress" on April 6 and 7, at the Hotel Vancouver. This is the result of the meeting of the executive of the newly-created "Alberta Industrial Development Association."

Town Council Holds A Quiet Session

The regular meeting of the town council, held last Monday evening, was one of the shortest sessions held for some time. There was little business of any importance to come up for discussion.

Owing to the irregular jury service on account of the bad road, the mayor was delayed in Medicine Hat and as he was not back in time to open the meeting Deputy Mayor Lavell occupied the chair. The following councillors were present: Messrs. Broughton, Lydell, and Keats.

After the reading and adoption of the minutes of the previous meeting, Town Solicitor Baird submitted an account of the town bylaws, providing that in future all police costs for prosecuting infractions of the bylaws be placed to the credit of the town. This bylaw was given its several readings and passed unanimously.

A letter was read from the Towns Council asking the co-operation of this council in petitioning the Dominion government to safeguard the rights of municipalities in dealing with large corporations who might want to use public thoroughfares. The secretary was instructed to secure full information before anything definite was done.

The action of the water committee in regarding R. Towell as assistant on the pumping station was approved by the council.

Councillor Keats thought that some action should be made to allow for the payment of taxes by installments. After some discussion it was decided not to change the present system at this time.

There being no further business the council then adjourned.

Death of Ex-Czar Is Now Assured

Confirmation of the execution of the former emperor of Russia and his wife and daughters under particular conditions by Bolshevik troops was given by Gen. Robert Paris one of the first French officers to be assigned to the Czecho-Slovak army in Russia. Gen. Paris is on his way home to make an official report of the recurrence to the French government. He said that his wife, Mrs. Marie, who in the basement of their house at Ekaterinburg, Siberia. The women of the royal family were subjected to mistreatment and mistreatment in the presence of the former czar before the executions took place, Gen. Paris said.

Miners to Combat The One Big Union

Word has been received in Lethbridge that delegates of district No. 13, United Mine Workers of America, who have been attending the international convention in Indianapolis are now on their way home, and all of their power to combat the One Big Union movement and the threat of Canadian unions to break international affiliations.

SPARTACANS ATTEMPT TO DISRUPT ALLIES

These agitators, admittedly Spartacans sympathizers, confessed to the allies' military authorities that they went into the compiled area to organize a force sufficient to attack the allies in time they would gain strength enough to attack the soldiers in the army of occupation and take possession of the Coblenz banks and railway stations and receive assistance from unoccupied Germany.

BIRTH MILLARD—In Redcliff, on Sunday

March 29th, 1918, to Mr. and Mrs. R. Millard, a daughter.

"My 13th month" stay in America concluded. This is the result of the anti-British movement now than there has been at any period of my life time. So wrote "Ray" P. O'Connor, M.P., recently a Chicago visitor, in a St. Patrick's Day message.

TWO REDCLIFF BOYS RETURN THIS WEEK

Jim Chesterman and Jack Kitchen Arrive This Week and Both Are in Good Health—Kitchen Came Through Unhurt.

Redcliff welcomed home two more boys overseas this week. These were Chas. T. Chesterman and John R. Kitchen.

Sgt. Chesterman, who was commonly known around town as Jim, was employed in the plating mill and in 1915 he enlisted with the 51st. He left Canada in April 1916 and shortly after arriving in England he volunteered to go to France with the first draft. After taking part in the fighting around Ypres and the Somme he contracted trench fever and was invalided back to England. On receiving his discharge he was a physical instructor in one of the big camps in England and remained there till after the armistice when he returned to Canada in April 1918 and shortly after arriving in England he volunteered to go to France with the first draft. After taking part in the fighting around Ypres and the Somme he contracted trench fever and was invalided back to England. On receiving his discharge he was a physical instructor in one of the big camps in England and remained there till after the armistice when he returned to Canada in April 1918 and shortly after arriving in England he volunteered to go to France with the first draft. After taking part in the fighting around Ypres and the Somme he contracted trench fever and was invalided back to England. On receiving his discharge he was a physical instructor in one of the big camps in England and remained there till after the armistice when he returned to Canada in April 1918 and shortly after arriving in England he volunteered to go to France with the first draft. After taking part in the fighting around Ypres and the Somme he contracted trench fever and was invalided back to England. A WRONG IMPRESSION.

In an editorial in the Medicine Hat News last Saturday, dealing with the possibilities for industrial development in Canada at the present time, the news says:

"The window glass industry is able to produce in larger quantities than the requirements of the market for the time being, and the lower transatlantic shipping rates have made it possible for Canada to take the unique position of an exporter of window glass to Europe."

As there is not enough window glass manufactured in Canada at the present time to supply a light for a homesteader's shack we don't know where the News got the idea that Canada "is able to produce in larger quantities than the requirements of the market."

At the present time there is not a pound of window glass manufactured in Canada. Years ago there was a small plant in the Niagara peninsula but it has long since gone out of business. Prior to the war a large percentage of this glass used in Canada came from Belgium and

England but the past four years we have been importing this kind of glass from the United States.

A correspondent says 99 per cent of Londoners are dance mad and that one per cent are interested in the birth of freedom. This looks like a one sided race between the stork and the turkey trot.

How about your income tax return? "The goblins'll git ya" if you don't attend to them soon.

Trees are Worth

\$1,000 to Farmers

According to a judgment handed down by Mr. Justice Stuart, the value of a grove of trees to a farmer is placed at \$1,000. The judgment given was in the case of Pawson vs. Tangy recently before the exchequer. The plaintiff was the owner of a farm at Coalville upon which a grove of growing trees were situated. He rented it to the defendant, Tangy, and Tangy permitted the stock to injure the trees. Justice Stuart in his decision, gave a verdict for plaintiff for \$1,000.

Alberta to Make

Live Stock History

"It is the intention of this government to make live stock history in Alberta during the next five years as it has never before been made in any of the provinces of Canada," Hon. Duncan Marshall, minister of Agriculture, told the members of the legislature Thursday afternoon in doing his stirring address on the agricultural situation of the province, and of what his department is planning to accomplish in the way of placing Alberta in the very forefront of live stock production.

The Corporation of the Town of Redcliff
REDCLIFF, ALBERTA

Auditors' Report

and

Financial Statements

For Year Ended 31st December, 1918

His Worship the Mayor and Councillors,
The Corporation of the Town of Redcliff,
Redcliff, Alberta.

We have examined the Books and Vouchers of the Corporation of the Town of Redcliff for the year ended 31st December, 1918, and in so doing we have verified all the requirements as Auditors have been complied with and that the Balance Sheets attached hereto, as signed by us and forming part of this report are, in our opinion, properly drawn up so as to exhibit a true and correct view of the state of the Corporation's affairs as at that date according to the best of our information, the explanations given to us and as shown by the books of the Town.

We would draw attention to the heavy liabilities as at the close of the year, particularly those for Debenture Interest and Sinking Fund Installments. Practically nothing has been accomplished during the past year in the matter of fulfilling these obligations. There are other pressing liabilities which

make it imperative that the growing delinquency in the payment of Taxes must be constantly impressed upon the citizens and every effort put forth to combat this condition.

There has been acquired by the Municipality and added to the Town Hall Site four lots forfeited for non-payment of Taxes. These have been incorporated as part of the Assets at their assessed value.

During the year the matter of the placing of the Stores Department upon a satisfactory basis of accounting required the attention of the officials. As a result of this it was found necessary to give effect to entries covering a deficiency of \$470.70 which was thereby revealed.

The Subsidiary Ledgers and Tax Roll were in agreement with the General Ledger Control Accounts.

Peas as a Profitable

Crop for the Prairies

(Experimental Farms Note)

The advantages of growing field

peas by the dry land farmer on

the prairie have never been given the

consideration that the possibilities

warrant. That satisfactory yields

can be obtained when they are sown

in summer fall has been explained

beyond peradventure by the results at

the Dominion Experimental Station at

Lethbridge, where the average yield

for the past seven years has been 27

bushels per acre. The cash value of

the crop is particularly high at the

present time and is apt to remain so

for some time owing to the demand

for seed. The high feed value of peas

especially when not alone with other

grains such as barley or oats, is so

well known and appreciated by stock-

men, that an special mention of the

fact is required. It is a fact that

criticism of the soil rather than being a

drain on it. This is an important

consideration for the dry land farmer

who, on account of the necessity of

his having to summerfallow his land

at least once in three years, is com-

pelled to stick to annual crops to a

greater extent than is his brother

farmer in districts where the rainfall

is greater. Grain following peas will

always yield much heavier than grain

following grain.

On account of the bulky nature of

the vines there is sometimes incon-

venience when with other crops due

to them being blown about by the

wind. This difficulty may be overcome

by either attaching the peas to a

full-size and then cut and thresh the

same day or else stacking as soon as

the circumstances will permit. They

are cut with the mow, with a good

harvesting attachment fastened to the

cutting bar.

The seed should be sown about the

same time as wheat, but at the rate of

two and a half bushels per acre,

depending on the size of the peas.

When being sown for the first time

on a farm it is well to inoculate. This

is not absolutely necessary, but has

been found that inoculation increases the yield

by fifty per cent. This can be done

either by scattering soil obtained

from a field in which peas have pre-

viously been grown over the field to

be planted at the rate of about two

hundred pounds per acre, or by ob-

taining a prepared culture with which

to treat the seed itself. This culture

can be obtained gratis by applying to

the Dominion Botanist, Central Ex-

perimental Farm, Ottawa. Any of

the standard varieties will do well but

Arthur or Mackay are recommended

on account of their earliness. Fran-

cise Blue has proved to be a good

yielder but is a little later.

GLAD TO MAKE RATE

UNDER OLD CONDITIONS.

One man who called in a country

newspaper after recently was firm in

his idea the editor was to be pro-

tecting class because the price of the

paper had been raised to \$2 a year.

In looking up his subscription ac-

count it was found that when the price

was \$1.00 he had paid his subscription

with eggs one year and the editor was

kind enough to let him have \$1.00

again provided he brought in the

same amount of eggs. In this case it

was nine dozen. But he refused and

preferred to pay the \$2.00.

In looking over the books of the

"good old days" it was found another

man had presented a case of honey for

two years' credit; another a dressed

turkey, in lieu of the dollar.

Anyone who made such "bargains"

in the past, says the editor, is more

than willing to duplicate the offer on

the same basis.

THOS. CROOKS

C. P. R. TIME TABLE

For the convenience of the public we have asked to announce the hours of departure of trains at the C. P. R. station here. They are as follows: West bound, No. 1, leaves at 11:50 a. m., and No. 1 at 11:30 p. m. East bound, No. 4, leaves at 8:40 p. m.

ITEMS OF LOCAL INTEREST

Men's spring caps. Gibson & Tupper.

Miss Lohmeyer spent a few days last week in Regina visiting friends.

More new books have arrived. Gibson & Tupper.

Mr. and Mrs. S. J. Wilson leave next week for Calgary where they will reside in future.

The financial statement for the last year appears in this issue of the Review and may be seen in another page.

Mrs. Cockrell wishes to thank the many friends who were so kind to her during the recent illness which visited her home.

Mr. and Mrs. Wm. Evans, who have been spending the past few years in England, returned to town this week and will reside here in future.

"The Better 'Ole" a most interesting film, was shown at the Amuse-U here last Monday and Tuesday evenings. The film was well patronized and thoroughly enjoyed by all.

Mr. Harcourt, manager of the Imperial bank, is at present confined to his bed suffering from an attack of pneumonia. Mr. Alla, of Fernie, B. C. is acting as manager during Mr. Harcourt's illness.

As Rev. Dr. Shearer, the new pastor for the Presbyterian church here will not be able to arrive here till the noon train on Sunday, there will be no morning service in that church in the morning. Service, however, will be held as usual in the evening, when Dr. Shearer will occupy the pulpit.

At a recent meeting of the executive of the Alberta Educational Association it was decided to postpone the annual convention until April, 1920. The loss of time on account of the influenza epidemic, and the increased railway rates in force were among the reasons which led to this decision.

If it is day goods you want get them at Gibson & Tupper.

Some one in Medicine Hat took a pot shot at a dog with a .22 rifle, the bullet passed through the wall of a kitchen and hit a baby boy in the thigh. The boy is now in the hospital in a serious condition. This should be a warning to those who use .22 caliber rifles as play things.

Arrangements are being made to hold a meeting in Medicine Hat next week for the purpose of reviving and re-organizing the Medicine Hat-Redcliff Football League. As a number of the old players from both places are now returning from overseas there is no doubt that the old time football team in this line will be revived.

Dr. Reper, the Bishop of Ottawa, was a visitor at St. Amuse last Tuesday. The bishop was delighted with the appearance and work of the church at this point, and after a visit through the industrial area, was most enthusiastic over Redcliff's future prospects. During the afternoon the ladies of the congregation served refreshments in the parish hall and a special social hour was spent.

Try a pair of Gibson & Tupper's new Rolling Mill suits.

Germany Wants in League of Nations

Dr. Dernburg, former chief of the German propaganda service in the United States writing in the Tageblatt of Berlin, declares that the German people will not sign a treaty of peace that is not inspired by impartiality, justice and a spirit of reconciliation, which he says President Wilson guaranteed in his message.

The German people, Dr. Dernburg adds, will not sign a treaty which does not contain a league of nations, in which Germany is admitted with full rights and will only consent to disarmament when other members of the league disarm.
